

Be part of the future of emergency specialist care.

My Emergency Doctor is taking the pressure off emergency care delivery.

“ Our vision is to transform emergency care, today and tomorrow. As a rapidly growing organisation, we ensure that our people and their skills can grow with us. ”

Dr Justin Bowra
Founder and Medical Director,
My Emergency Doctor

If you're interested in applying your emergency specialist skills in a new and flexible way, talk to us.

Across the country, Australians are turning to hospitals and ambulance services as a first port of call for acute medical conditions. Limited staff and overwhelming workloads, combined with an ageing population make telemedicine a logical way of meeting patients' needs, alleviating pressure on hospitals, and ultimately lowering the cost of care.

My Emergency Doctor is Australia's leading emergency telemedicine service redefining emergency medical care. We are Australia's first telemedicine service led by FACEMs.

Established in 2016, our FACEMs have managed over 150,000 calls for emergency care, anytime and from anywhere.

Hospitals, urgent care centres and ambulance services call on us as specialists in acute care to help manage overflow, when they are at capacity, or when advice is needed for a patient who becomes acutely unwell, often after hours.

We partner with rural and remote healthcare services, and with Primary Health Networks to ensure Australians have access to an emergency specialist whenever they call, and wherever they are.

WHERE TO NEXT?

Established in 2016,
our FACEMs have
managed over

150,000
calls

for emergency care in
Australia, anytime and
from anywhere
in the world.

What you can expect from us

We will provide you with the training and support you need to become a successful telehealth clinician in order to deliver the best outcomes for patients, their families and healthcare services.

Our reward to you includes a generous, above market-rate remuneration package. We also provide opportunities to complete activities that contribute to CPD.

What we ask of you

We recruit FACEMs with a minimum of one year experience and reward those who can commit to a minimum of one regular 4-hour shift per week, and be part of our on-call roster.

Where to next? Be part of our International FACEM Mobility Program.

We are also looking for FACEMs based overseas or intending to do so, to help us cover our overnight roster.

Talk to us if you are looking for a family-friendly career break, or seeking the opportunity to earn whilst living overseas. Work daylight hours in the country you are in to support Australian patient care during their nights. Be part of an International team of FACEMs transforming emergency care in Australia.

“ People don’t want to visit an emergency department, but are often afraid of what could be wrong. We can help answer those questions by connecting within minutes.”

Dr Sue Ieraci FACEM

“ Taking the leap to practice using telemedicine has shown that we provide the same valuable service as if we were there in person.”

Dr Catherine Kizana FACEM
